Introduction

An online poker freeroll is a poker tournament in which there are no entry fees and cash/prizes are awarded to the top finishers.

This ebook contains everything you need to know about online poker freerolls. You'll find information about:

- choosing an online poker room for freerolls and the importance of online poker networks when finding freerolls
- which online poker rooms are the best
- cash and prizes offered
- how to signup and register to be eligible for 100s of freerolls
- any entrance requirements that you must meet in order to play in the freeroll
- how to claim your cash and prizes
- poker variants that you'll find at the poker freerolls, and links to the rules and strategies for playing them
- a weekly freeroll schedule of over 200 online poker freerolls that are available to you in a single week -- online poker freerolls start about every 15 minutes, and this ebook will tell you when and where to find them

★ **Note: It is highly recommended that you read this ebook straight through from start to finish.**

Let's get started!

Choosing An Online Poker Room for Freerolls

Most online poker rooms have only several hundred registered users. A shared online poker network is a group of online poker rooms that essentially operate as a single online poker room. This increases the number of players at the tables and makes for livelier games. Players can be logged in from any online poker room on the shared online poker network and will be competing against all other players that are signed on to any of the poker rooms on the network. There are currently about a dozen shared online poker networks in operation, only the best of which are represented in this ebook.

★ The [Microgaming Poker Network](#) is a good example of a shared online poker network. The [Microgaming Poker Network](#) consists of more than

20 online poker rooms. Among the online poker rooms on the [Microgaming Poker Network](#) are [PokerTime](#), [Golden Riviera Poker](#), and [Wild Jack Poker](#).

A few online poker rooms have several thousand registered users. These few online poker rooms are so large and have so many players that they essentially operate as their own online poker network. The only way to compete on that online poker network is to play at that online poker room.

★ [PokerStars](#) and [Full Tilt Poker](#) are prime examples of large online poker rooms that operate on their own network.

As a freeroll player, why do you care about online poker rooms and online poker networks? Because all online poker rooms that operate on a given network offer the same online poker freerolls at the same time to all of its players. Thus, you only need to be a registered player at one of the poker rooms on the network in order to have access to their freerolls. Continuing the example from above, since [PokerTime](#), [Golden Riviera Poker](#), and [Wild Jack Poker](#) are on the [Microgaming Poker Network](#), it makes no sense to become a registered player at all three of these online poker rooms!

★ In fact, some shared online poker networks prohibit you from registering at more than one online poker room that is one the network. Others allow you to register at more than one online poker room on the network so long as you use the same alias / username / nickname at each online poker room on the network. If you decide that you want to register at more than one online poker room on a shared online poker network, check with the online poker room first.

It would take you hours to identify and classify the hundreds of online poker rooms into those that operate as their own online poker network and those that operate on a shared online poker network. We know this because we have done all that work for you already! This ebook will tell you which online poker rooms operate on their own network and the best online poker room to select for each shared online poker network.

The Best Sites for Online Poker Freerolls

Here is an index of the online poker networks and the online poker rooms that you'll be using to play freerolls. The link in the **Poker Network** column takes you to a current, up to date listing of all online poker rooms on that network, while the link in the **Poker Room** column takes you directly to the online poker room where you can signup and register.

Network	Poker Room
PokerStars	PokerStars
Full Tilt Poker	Full Tilt Poker
UltimateBet	UltimateBet
BoDog	BoDog Poker
Microgaming	PokerTime
Everleaf	Poker4Ever
Merge	Oddsmaker.com Poker
Cake	Doyle's Room

All of the online poker rooms that are listed above have been hand-picked as the best among the online poker rooms on their network. They were selected on the basis of their:

- Freeroll selection and quantity
- Game variety
- Reputation in the industry
- Demonstrated customer service
- Poker software usability and feature set

Freeroll Cash and Prizes

Online poker freerolls offer several types of prizes to top finishers. The most popular prize is cash, with up to \$500 or more divided among the top finishers in the freeroll. Another popular prize is a seat in a weekly or monthly tournament, the prize pool for which could be \$1000 or more. Occasionally, t-shirts, hats, DVDs, and other gear are offered as prizes.

The Weekly Freeroll Schedule tables (below) contain information about what prizes are offered by each freeroll.

Signup and Registration

Signup and registration at the online poker room is required in order to play in their online poker freerolls. The signup and registration process is different for each online poker room, but generally involves:

- Downloading and installing the online poker software
- Providing at least a username / alias / nickname and a valid email address
- Confirming the email address by replying to / responding in some way to a confirmation email sent by the online poker room to that email address

Here are some critical points regarding signup and registration:

★ **Be sure to use the links in this ebook to start the signup and**

registration process. Some of the freerolls that are listed in this ebook are exclusive to the readers of this ebook.

- ★ **When signing up and registering at various online poker rooms, be sure to provide your correct email address, name, address, and any other information that is required. If you do not, then you may not be able to claim any cash and prizes that you win playing at their online poker freerolls.**
- ★ **Some online poker rooms offer both a download and a no-download / instant play / flash version of their poker room. In general, you must use the download version of the poker room in order to participate in their online poker freerolls.**

Not all online poker rooms accept signups and registrations from all regions of the world. For example, with respect to the United States:

- Most online poker rooms accept signups and registrations from all 50 states
- Some online poker rooms accept signups and registrations from all states except WA
- Some online poker rooms accept signups and registrations from only 39 states (with the following states being barred: IL, IN, LA, MI, NJ, NV, NY, OR, SD, WA, WI)
- A few online poker rooms do not accept signups and registrations from any US state

So as not to waste time, be sure that the online poker room that you select accepts signups and registrations from your area. For the United States, this is listed in the **US Policy** column of The Weekly Freeroll Schedule tables.

Entrance Requirements

Most online poker freerolls are open to all registered players and are true freerolls. A few online poker freerolls are open to only players that have played in a raked game at the online poker room in the past 24 hours, are recent registrants, or are open to those in exchange for "points" that the player has earned by playing in raked games at the online poker room.

Any entrance requirements are listed in **Entrance Requirements** column of The Weekly Freeroll Schedule tables (below).

Poker Variants

No-limit texas holdem is by far the most popular poker variant that you will find at the freerolls. Seven card stud and Omaha Hi/Lo are also played on occasion.

Use the links below to familiarize yourself with the rules and strategies for these poker variants:

- [Texas holdem](#)

- [Seven card stud](#)
- [Omaha Hi/Lo](#)

Claiming Your Cash and Prizes

Claiming any cash and prizes that you win at online poker freerolls is generally subject to the following requirements:

- You will be asked to verify your identity, usually by mailing or emailing a copy of a government-issued ID and/or a copy of a bill with an address that matches the address on your government-issued ID.
- You must have met the minimum withdraw amount set by the poker room, which generally ranges from \$10 to \$50.

Each online poker room may have additional requirements that may need to be met in order to claim your cash and prizes. Any additional requirements beyond identity verification and meeting the minimum withdraw amount are listed in the **Withdraw Requirements** column of The Weekly Freeroll Schedule tables (below).

The Weekly Freeroll Schedule

★ **For an up-to-date, sortable, and filterable freeroll schedule:**
